

Delivery & Driver Tracking

Restaurant Pro Express is designed to meet the needs of restaurants with delivery operations. RPE enables your staff to track the status of the order from preparation through delivery. The delivery management system assigns orders to different drivers and displays when they are dispatched with their deliveries. Drivers check-in when they return to settle their funds.

Delivery & Driver Tracking Features

- Assign drivers to specific orders
- Track all stages of the order
- Record which orders are out for delivery
- Dispatch Drivers
- Record when the driver comes back into the restaurant
- Displays time promised for delivery to the customer
- Automatically displays the customer's address
- Delivery order status readily available so you have accurate information to share with your customers waiting for their order
- Ability to report on time intervals between order states

Additional Restaurant Pro Express Features

Inventory & Ingredient Tracking— records and tracks inventory us-age

Customer Loyalty System— gives rewards to keep your guests coming back

Customizable Buttons— set up all your top selling food/drink items
